### **DETAILED ACTION**

1. This office action is in response to the Applicant's Amendments, filed on January 11, 2007. Claims 1, 3, 6-7, 20, 22 and 25 are amended. Claims 2 and 21 are canceled. Claims 1, 3-20 and 22-34 are presented for examination.

### ***Allowable Subject Matter***

2. Claims 1, 3-20 and 22-34 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Claims 1 and 20 identify distinct features, "processing a request for automatic transmission of information about a specific advance directive made requester other than the service provider that supplied information about that specific advance directive by determining if the requester has been previously recorded in the database as being a qualified member of one of a plurality of predefined common networks previously recorded on the database, and if so recorded, granting the request if the requester and the service provider cohabit a common one of the common networks that includes the requester and the service provider, denying the request if the requester and the service provider do not cohabit a common one of the common networks that includes the requester and the service provider, notwithstanding that the requester has been previously recorded in the database as a qualified member of another one of the predefined common networks". The closest prior art, Tritch et al (U.S. Pub. No.

Art Unit: 2166

2003/0040939) disclosing, storing and transmitting about one or more advance directives to a requester, fails to suggest the claimed limitation as mentioned above in combination with other claimed elements. The above features in conjunction with all other limitations of the dependent and independent claims 1, 3-20 and 22-34 are hereby allowed.
